

News From Your TOWN HALL

Three city Commissioners will be elected in the forthcoming election. There are seven, so far, qualified for the three jobs.

Of the seven qualified not one is a farmer. Farmers and farming pay for and run this country. There is one hold-over who is a farmer - Mr. Robin.

How is a community going to be run FOR Farmers unless there are farmers on the Commission?

Mr. Murphy, Mr. Scarborough, Mr. Richmond and Mr. O'Grady, are manifestly merchants. Mr. Taylor is a merchant. Mr. Lloyd is a retired citizen. Mr. May is a working man. How many of the candidates know anything about the farmer and his problems? From the standpoint, they know the farmer's viewpoint. Each and everyone of them are of the farmer but none of them know from experience the farmer's troubles.

Farmers, not more than two, ever get together. If you want the merchant to run your business the City of Belle Glade, then pick one of the merchants who serve you to be your representative on the Commission.

Some of the candidates are against anything that costs money - drainage, sewerage, better roads or anything that smacks of any cost.

How many of the candidates ever ran anything at all? How many of them are successful at their own business? How many of them are for or against a City Manager?

How many of them are willing to drain the Town? How many of them are willing to put in a sewerage system at a minimum cost?

How many of them are willing to stay in the Glades on a permanent basis? How many of them are willing to add anything of their own?

What diques are there in the race? Three men are banded together to run things if they are elected, we are informed. Ask each of the three candidates to whom he is tied? Who is running for Mayor? Who is running for Mayor what is he for?

We suggest that a GOOD OLD GEORGIA, SOUTH CAROLINA, or ALABAMA POLITICAL RALLY IS IN ORDER.

Let your candidate meet with his opponents and tell the public what he is for.

We suggest, September 5th, Friday night as the time. Don't let any candidate tell you he controls anything. There are at least four candidates for Mayor, and only one can be elected.

Are you for a City Manager? If so, are you for the present Manager or for a new one? If you don't like the present City Manager, has he been run during the last year, can you improve it? If you can't, aren't you running for office?

If you haven't some remedy, which is constructive, then quit your bellyaching and get your friend to register AND VOTE.

Youth Meets A Tragic Death By Drowning

A tragic death occurred Sunday, when four year old James Porter Holbrook, a grandson of Mr. and Mrs. Frank Friend was drowned in one of the drainage basin canals.

The grandparents, and the two young children, had gone to the farm for inspection, and while the grandfather momentarily gave attention to some work, the lad accidentally fell into the waters.

Rescue work was at once started, but it was not until Sheriff John Kirk had brought Harold Cover and Leon Miller, professional divers, that Cover located the body wedged in the confines of a sluiceway or culvert, where it had been driven by the force of the current.

The lad was the son of Mr. J. H. Holbrook of Belmont, Miss., and had been a visitor in the home of his grandparents.

County To Vote On Water-Soil Conservation Project

The County Commissioners have set October 7th, for a referendum vote, on a referendum nature, on a referendum of the Everglades Drainage District's establishment of a water and soil conservation area. This is one of the over all features of the drainage plan now in the hands of Army engineers. The area not only includes part of the territory in the Lake Worth Drainage district. The county to bear the expense of this special election.

A Day's Vegetable Shipping Equals Yearly Water Income

Joseph Ferris, executive vice-president of the U. S. Sugar Corp., who was unable to be present at the present level hearing at Belle Glade, has this to say concerning the company's attitude for a lower level: "When the U. S. Sugar Company advocates lowering of the Lake Okechobee that does not mean we want to drain the lake. We simply want temporary lowering, so that when September and October rains come, as they always do, thousands of acres of land in the Everglades beyond the lake will not be flooded."

We believe a third outlet from the lake will be provided for conservation for proper control in the Everglades. The third outlet would enable the engineers to lower the level beyond the danger point to life and property in case of emergency.

Control of level would in no wise effect navigation interests, and the value of one day's shipping of surplus citrus would exceed the value received from the shipping and navigation interests in a whole year.

Thomas Elliott Goes Into Business

Thomas Elliott, of Pahokee, who has many friends in Belle Glade, is going into business for himself. Contractor Ende Glick is erecting a 32x52 foot motor repair shop adjoining the State Market, as well as buildings to house bunkers for truckers and a restaurant.

Linda Howard Honored

Mrs. Floyd Wilder entertained Friday afternoon in honor of the fourth birthday of her daughter, Linda. The children were entertained with indoor games.

Firemen Elated Over New Pirsch Pumper Truck

Rated The Most Modern Fire Unit Built

Hundreds of Belle Glade people have dropped into the fire department the past week to get a look at the new Pirsch fire truck which has been delivered to the city.

Bob and Buddy Bair, who went to Kenosha, Wis., to drive the truck through to its destination, the new 1935 model truck safely and report that, along the line, people stopped to gaze at the two truck caravan, and city firemen requested that the truck be made so the crowd inspect the new machines.

Buddy drove the machine consigned to Nashville, Georgia, and there the citizens had turned out en masse and had a big celebration over the arrival of their piece of fire fighting apparatus which had been in order for about the same period as that of the Belle Glade.

Bob, who is the assistant chief here, is a highly pleased and elated fireman, and says that the new machine has got on of the best and most modern fire weapons of its type, with more and more equipment than the contract included.

Michael Murphy, who also added his name to the parade from Group 1, where George Scarborough is the other member.

The truck has a Hill 109 engine, a two speed real axle shaft, a beautiful 32 foot aluminum extension ladder, a 12 foot aluminum roof ladder, a new design of carry fire extinguishers, using a new fire deterrent chemical, an over engine cab, which gives better visibility for the driver. The booster and suction hose is still remaining but will be shipped, but the department has this equipment, so that the new machine can be put into given a thorough local tryout.

At Atlantic City, a representative of the Southern Underwriters' list, before such action could be secured. The Southern Underwriters' list, before such action could be secured.

The fire chiefs are now ready to enlist a number of new volunteers for the department, as plans are in readiness to start a class for fire fighting instructions and education.

Swain Talks Over Concession At The Hillsboro Ranch

R. H. Swain, who has operated a grocery and meat market over on Sixth street, is disposing of same, and is looking for the concession at the Hillsboro plantation, including the commissary and the post office.

Puts Out Large Celery Seed Bed

Fritz Steyn has put in a large celery seed bed near the pumping house of the Sorrelles Corporation on Road 25 where he was able to secure high and dry land.

Infant Son Dies

Pick Up Parties Involved In Auto Theft Case

Deputy Sheriff Frank O'Connell, recently picked up two women at the Belle Glade bridge, as they hiked-lifted along the highway, one carrying a young child. The women gave their names as Mrs. Roy Freeman and Belle Cluzen. Later on in West Palm Beach Ray Freeman and Charles Waller, their companions, were arrested. The group were charged with having stolen a Studebaker car, at Sparta, Tenn., and then abandoned it along the way to Florida. The men and woman parted up the line, the woman coming to the Glades by bus and hitchhiking, and the men went to West Palm Beach.

During a grilling at the Sheriff's office, the group admitted the theft of the car, and also waived extradition papers. Tennessee officers took them back to answer to the state and federal laws.

Taylor And Murphy File As Candidates

Not a lot of excitement in the political campaign for the city Commission for the week, as only two more candidates qualified for positions in the City Commission.

Mayor George A. Taylor again filed for re-election to the board as a candidate from Group 2, where A. J. Richmond is also entered.

Michael Murphy, who also added his name to the parade from Group 1, where George Scarborough is the other member.

The candidates in Group 3 are N. D. Lilly, Billy O'Grady, and E. J. O'Grady.

Arrangements are being made for the holding of a citizen's political rally at the City Auditorium, during the election on September 9th, at which all candidates will be given opportunity to make known their platforms.

City Commission Still Working On Sewer Bond Deal

The program and details connected with a tentative sanitary sewage bond issue for Belle Glade need not be a very slow one, but it is progressing. City officials have been conferring with the Southern Underwriters' list, before such action could be secured.

The fire chiefs are now ready to enlist a number of new volunteers for the department, as plans are in readiness to start a class for fire fighting instructions and education.

Swain Talks Over Concession At The Hillsboro Ranch

R. H. Swain, who has operated a grocery and meat market over on Sixth street, is disposing of same, and is looking for the concession at the Hillsboro plantation, including the commissary and the post office.

Senior Scout John Bregger Given Seaman Rating

Fine Trip, Good Food, No Sickness Among U. S. Jamboree Delegation

A letter sent by John Bregger, senior scout, from aboard the steamer C. H. Muir, which carried 1000 American Boy Scouts to the World Jamboree at Seint-Omer, France, has been received by Scout Master D. Nathan of Troop No. 22, Belle Glade.

The letter was dropped from the ship with docked there, eleven hours late on schedule, due to the fact that the ship was in an officer on another ship.

John states that he was assigned to Troop 20, a scout division, made up of 28 out of the 32 members were Eagle scouts, each troop having a senior scout master and two assistants, and he was of the opinion that his bunch was the best of the jamboree.

One of his troop members were 98 merit badges, the Eagle and the Arrow of Life.

That the passage to France was very enjoyable till they reached the ship was there, and to do as they pleased, and that the waters became pretty tough, altho he was not ill a bit. It passed through the English Channel, but could not be seen, on either side of the channel or over the English coast leading to Antwerp.

When the Muir left New York, the captain told the boys that the ship was there, and to do as they pleased, and that the waters became pretty tough, altho he was not ill a bit. It passed through the English Channel, but could not be seen, on either side of the channel or over the English coast leading to Antwerp.

While enroute John followed out his customary studies of English history, and the ship was assigned to ship duties.

He states that the ship crewed everything possible for the comfort of the scouts, and that the food served was bountiful and excellent. The scouts were divided into four groups, and sent back to the home people, it was learned from the report of the rear.

Antwerp that it was given a great ovation with a civic salute, and a band parade.

The delegation of scouts to the Belgium monument and placed flowers on the tomb of the American war dead. The national flags of the U. S. A. and Belgium were seen on the ship.

Presbyterian Church To Hear Rev. Wood

The Rev. Ryan L. Wood, Pastor, Memphis, Tenn., is conducting the Wednesday evening service of the Presbyterian Mission here.

Meetings are enjoying a good attendance, and Mr. Wood is delivering a series of messages. His subjects are along the lines of Presbyterian Church order and the mission of the church.

Colored School Is About Ready For Condemnation

Mr. Ferguson, of West Palm Beach, superintendent of school buildings, spent Monday in Belle Glade in company of G. Taylor, a member of the school board, inspecting local schools. He inspected the negro school building and stated that it was one of the worst he had ever inspected and it was ready for condemnation, and hardly worth expending repair money on.

A number of the school rooms and the rafters at the white school are being painted and some changes in lighting.

Mr. Taylor states that it is the intent of the school board to sell the colored school site and building, and to use the proceeds for the erection of a new modern building on the 23.87 acre site now owned by the colored school board, as soon as possible.

Man's Ingenuity Produces A New Hyacinth Machine

"Walking Shoes", a unique spray vehicle, invented by Le-mart Johnson to kill hyacinths by means of a high pressure spray is now working on the North New River Canal destroying the lilacs as it goes. It passed through the English Channel, but could not be seen, on either side of the channel or over the English coast leading to Antwerp.

A truck chassis with a four wheel drive, and a foot pump to foot empty wire spools obtained from the Florida Power & Light Company installed in lieu of regular wheels, hubs having been welded into the center of the spools.

These spool wheels act as pontoons to keep the vehicle afloat in water and also act as a means of landing and equipment amphibious. Wood strips have been bolted onto the spokes of the wheels to give wheel traction in passing over the hyacinths. Iron fins welded to the inside of the wheels form paddles which drive through the water.

A platform for a working man has been built in place and two Briggs & Stratton air cooled motors installed one at the front and one at the rear. One motor drives the machine and the other operated the back loads the spray rods.

One of the men who operate the machine, one who operate the motor, one to operate the spray rig, and a third on the back to operate the cable attached which is used to pull the machine out on land whenever it is necessary to make around a bridge or other obstruction in the canal.

One of the men who operate the machine, one who operate the motor, one to operate the spray rig, and a third on the back to operate the cable attached which is used to pull the machine out on land whenever it is necessary to make around a bridge or other obstruction in the canal.

Hyacinths will be killed in the Hillsborough and West Palm Beach Canals by the same means.

Dwight Rogers Father Of The Terminal Leave Payments

Congressman Dwight Rogers representing this Congressional District, was the author of the first bill which provided enlisted men of the armed services of War II receiving furlough will be paid the pleasure of seeing their family as a law.

When you cash your bonds, do so on or before September 1st, remember that your Congressman is the man more than any other individual member of the House, who the credit for the passage of this momentous bill.

Congressman McCormick on the floor of the House.

Congressman Rogers says "After September 1, 1947, you who need to and want to cash your bonds, must come to the same to any bank used for the payments of United States bonds. You are entitled to the full face value of your bonds plus accrued interest. Do not discount your bonds in an amount or sum."

Atlanta Federal Reserve Bank Boosts Ramie. In The Glades As A Potential Money Crop

High Tax Levies In Glades On Hospital Demands

The County Commissioners at their meeting, Monday, released the tax levies for the various districts, for the coming year assessments, and they all showed considerable increase, especially was this so for the Glades area.

In the Belle Glade-Pahokee area the levy this year will be 33.87 mills as against 30.11 last year. Canal Point area shows an increase of 4.01 mills, on 29.11 mills.

This sectional increase is due to a higher levy fixed by the West Palm Beach County Hospital District levy, which is 3.75 mills higher than formerly. This increase is due to the fact that the Hospital District has taken over the Migratory Hospital at Belle Glade and the Everglades Memorial hospital at Pahokee. It is imperative to have more funds to maintain and operate these health units, hence the increase.

Expert Discusses Soils Of The Glades

The movement to raise \$1500 for the interior decoration of the Belle Glade hospital, and the Lions Club has assumed the responsibility of raising the money. The club program speaker at the luncheon meeting was Jack Ballard, who gave a most interesting talk on the "Soils of the Everglades" based on a study of the soils of the area by Department of Agriculture engineers, over the past decade.

He stated that there are eight different types of soils, of which the most common is the Okechobee silt, which is a clayey sand, and the part it will play in the textile industry in this country. The future of ramie is very bright as the future of cotton some 40 years ago. Even though the future has a bright outlook there are some difficulties in the deacidifying process as the facilities are not adequate in the care of the great amount of ramie now being grown. However, if conditions are favorable, a great expansion in the deacidifying and processing plant is being planned, and there is a possibility that there will be a scarcity of the raw ramie fibre plant to be produced.

Whatever the outcome will be the bank thinks there is a (Continued on page 4)

Bad Dike Break

The dike protecting Section 22, which is the land of the Okechobee, gave away the first of the week flooding the entire area, and the water has been expressed by ground water.

South Florida Conservancy District that the pressure of water from the flood in Section 22 may breach the dike district which would permit the glades flood waters to back up on the high land in the district and probably flood the town site of South Bay.

Story Of Glades Crop Given 'Money Bags' Of South

"The difference between the ramie industry as it was two years ago and as it is now is that it was still in the experimental stages then and it is in the developmental stages now. The contrast is very important. In the experimental stage of an industry there is a search for the technically feasible methods and processes that will best achieve its objectives. After these methods and processes have been worked out as general principles the developmental stage begins. In the Ramie industry in the south during the past few years there has come a long way in the direction of the perfection of the process of making ramie into a large scale. Ramie companies have sprung up in the southern states, with three of them being located in the Everglades vicinity of the Florida waters in the northern part of the state. These companies have large plots of land that will eventually be planted in ramie and will be harvested, deacidified and sold as a large scale experiment. In the event the experiment is a success, and there is little doubt, the acreage of ramie in this section will increase in number upward to a 100,000.

The Federal Reserve Bank in Atlanta is impressed with the outlook of the ramie industry and the part it will play in the textile industry in this country. The future of ramie is very bright as the future of cotton some 40 years ago. Even though the future has a bright outlook there are some difficulties in the deacidifying process as the facilities are not adequate in the care of the great amount of ramie now being grown. However, if conditions are favorable, a great expansion in the deacidifying and processing plant is being planned, and there is a possibility that there will be a scarcity of the raw ramie fibre plant to be produced.

Whatever the outcome will be the bank thinks there is a (Continued on page 4)

Observation and Comment

It looks as if Belle Glade may become quite a medical center for the West Glades. For while people there will be the Belle Glade hospital with all its modern facilities, and it is anticipated that the Tuberculosis Society, the Cancer Society, the Paralysis groups from the county seat, along with visiting nurses will be given proper facilities in connection with the former Migratory hospital. Later we will have a Crippled Children's hospital as an additional service. The colored clinic is proving a distinct benefit to ever people who need it. See here, Pahokee, through its Everglades Memorial hospital, will also get proper health facilities, as the same board will have the management of both hospital institutions.

Many people have the opinion that the county do is to meet, eat and have a good time, and do nothing of material worth for their city. Such people are wrong. The plan of operation of such clubs in order to be and retain a charter, for doleable club do not exist. It was with considerable pride that the Lions Club of (Continued on page 4)

Mr. and Mrs. Junius Harris and daughter have gone to

Hartford, Conn., where he will attend an insurance school for six weeks. They were accompanied as far as Jacksonville by his mother, Mrs. E. L. Ringo who visited her brother.

Mrs. George Scarborough and daughter Betty Lou have returned here to make their home after living in Solberg for the past year for Betty Lou's health.

Mr. and Mrs. M. D. Conrath arrived last week from Ripley, N. Y. and will spend the winter months here.

Mr. and Mrs. J. B. Jones, Jr., and children spent last weekend in St. Petersburg as the guests of Mr. and Mrs. K. B. MacAlpine.

Mr. and Mrs. B. N. Forest are leaving for Atlanta this week end to spend a week on business.

Karl Close, who operated a bakery in the C. and B. Grocery this past season, has re-enlisted in the Army Air Forces and is now awaiting assignment.

Mr. and Mrs. Herman Close and family have returned from a vacation trip spent at a New Jersey summer resort.

L. L. Price left last week for Maryland and Pennsylvania to spend the balance of the summer.

Mrs. Carl Hayes and children have returned home from an extended vacation with

relatives in Georgia. They were accompanied home by Mrs. Anne Rogers and Miss Lucille Cobb of Metta, Ga.

Mrs. C. A. Bailey and son Bill have joined Mr. Bailey in Highlands, N. C.

Coch W. H. Cooke and family, who have spent the summer vacation in Kentucky and Maryland, arrived back in Belle Glade Tuesday afternoon.

HOME DOLL CLUB WILL MEET THURSDAY
The Home Demonstration Club will meet Thursday August 21 at the Woman's Club Building at 10 a. m. Etched aluminum trays will be made under the guidance of Miss Sara Horton, County Agent. Members are requested to bring sandwiches, and drinks and dessert will be furnished by hostesses, Mrs. F. D. Stevens, Mrs. R. W. Kidler, and Mrs. Roy A. Bair.

FLA. BFW FEDERATION MEETS AT FT. PIERCE

Progressive business women from all over Florida met at Fort Pierce last weekend to attend a state executive council meeting of the Business and Professional Women's Clubs. Highlights included a banquet at the Indian Hills Golf and Country Club Friday night at which the directors of the Chamber of Commerce entertained the members of the board a breakfast and luncheon at the Burston Hotel, and a banquet at the Community Center Saturday. Sunday morning, a breakfast, swimming party and final session was held at the Beach Casino.

Business meetings were presided over by State President, Miss Sara Lee Creech. Other state officers taking part were First Vice President, Elizabeth Heth of Tallahassee; Second Vice President Frances Thorne of Daytona Beach; Recording Secretary Bertha Luke of Orlando; Corresponding Secretary Virginia Roemer of Belle Glade; Treasurer Annie Hull of Lakeland.

Sunday morning Miss Creech and Miss Frances Maule, editor of "Independent Woman" were interviewed over radio station WTKA by Mrs. Douglas Silver, state radio Chairman. The local club was represented by Mrs. Florence Smith who accompanied Miss Creech and Mrs. Roemer.

BLESSED EVENT

Mr. and Mrs. W. A. Allen announce the birth of a daughter, Cheryl Anne, at the Everglades Memorial Hospital in Palooka on August 5th.

Mr. and Mrs. John A. Morrell (Louise Ray) announce the birth of a son, William Howard, at Columbia, S. C. on July 30. (This is a correction on last week's announcement)

More New Books At Public Library

Mrs. J. F. Brown, city librarian, states that new books for circulation are going on the shelves daily, and that a consignment of 100 new books are due to arrive soon. The library collection now numbers 3685; with 281 borrowed, and a circulation of 421. Mrs. James Ball has donated a small bookcase for the placing of books, which is much appreciated, as present shelving room is very much congested.

Court Hands A \$100 Fine To Belle Glade Man

S. N. Wiseman, who stabbed his twin brother, S. M. Wiseman, in a quarrel over a woman, was arraigned in criminal court at West Palm Beach, on an information of adultery, filed by Constable Ray Whitlock. The defendant was fined \$100 and costs. No charges have been preferred in the cutting case awaiting the condition of the brother who was stabbed. Late report is that he will likely survive his wounds.

Pierce Block Turned Over To A & P Corp

The Bill Pierce block which has been under changes for the new home of the A & P super market, will be turned over to the lessees at the end of the week. Exterior work of an extensive nature will now be on the program including the ramps and steps to the store. The interior arrangements have been made to the specifications of the lessees and are of a very nifty type. Stocking of the big mart will now be undertaken preparatory to the unannounced date of opening.

Woman's Magazine Ed. Presented By BFW Club

The Belle Glade Business and Professional Women's Club honored on Tuesday, by a visit of Miss Frances Maule of New York City, Editor of the internationally distributed magazine, "Independent Woman", and while here the distinguished editor and lecturer was entertained in the home of Miss Sara Creech, state president of Florida federation of this organization.

In the evening, in order that citizens might meet and hear Miss Maule, a public meeting was held at the Women's club, and those who attended were delighted with the address presented and the magnetic personality and friendliness of the honor guest who spoke upon the Federation's slogan of the year "Together We Face Tomorrow".

Her main plea was that woman have a talent and a place of operation in the public life of the tomorrow, both from ability, training and need for their services. She cited that during the recent war it was proven that men and women could work and co-operate and accomplish, and there was no substantial reason why that co-operation should not be continued.

She declared the fact that there was an existing tendency pushing the women out of their public work activities which she declared was an unfair and wrong attitude, for the peace period problems were no greater than those of the war days, and that some of them needed the woman touch and instinct for force and effect.

She stated that the duty of women of today and tomorrow to take a more active part in public affairs and in politics as it was through their power that reforms nearer their conception, and for the betterment of communities in which they live can be brought into force and effect.

After the lecture, refreshments were served by the hostesses of the evening, Mrs. Rachel Wooten, Mrs. Abby Zump, and Miss Audrey Jones.

The guests were introduced to Miss Maule and an enjoyable social hour followed.

Harrell-Blackwell Nuptials To Be November Event

Mr. and Mrs. J. H. Harrell of Bean City, announce the engagement and approaching marriage of their daughter, Miss Ruth Harrell to William F. Blackwell, Jr., of Clewiston.

Miss Harrell is a graduate of the Belle Glade High School with the class of 1947. She is an active member of the South Bay First Baptist Church and also of the Order of the Rainbow. At present she is employed in the Postoffice Department at the South Shore Sugar Plantation.

Mr. Blackwell attended school in Arcadia and was in the South Pacific Campaign with the Seabees for three years. He is now employed by the United States Sugar Corporation at Clewiston.

The wedding will be an event of late November.

Closing Friendly Market

Royal's, Incorporated, who for a number of years have operated the Friendly Market, as a down town trade outlet, are closing the store and moving the stock to its main store on West Avenue A.

Former Local Girl Leads Glades Contest

Miss Betty Jean Barnhill of Moore Haven, formerly a Belle Glade girl, is leading the contest for "Miss Glades County" which is being conducted to raise funds for a swimming pool. This project has created more interest than anything of its kind in many years, and a large number of candidates have entered the race sponsored by various merchants and business locations was turned on for the first time on Monday night, from the bridge to the packing house curve. New lights go in over in the school house sector, as well as on the south side of the main road, and many other locations in the city.

Installing New Street Lights

The Florida Power and Light Company has a crew of linemen busy installing the new system of street lights which have been contracted for many months. They installed the Lake road line first and illumination was turned on for the first time on Monday night, from the bridge to the packing house curve. New lights go in over in the school house sector, as well as on the south side of the main road, and many other locations in the city.

Battle Of Mud Puddle Scene Is Filled Up

Some ten days ago there was the Battle of the Mud Puddle over in the Chosen section in which a number of the neighbors participated, protesting against the use of their lawns as a driveway.

The hole certainly was a treacherous mess, but repairs were made on the same on Monday night, when those same neighbors got busy and brought in truck loads of rock to fill the hole and make it safe for traffic.

LEGAL NOTICES

NOTICE
Notice is hereby given, that the State of Florida, by and through the State Engineer, will on Thursday, August 14, 1947, at 10 o'clock A. M., at the Town Hall in the City of West Palm Beach, Florida, proceed to the sale of the lands of the State of Florida, Florida, for the year 1947. CITY COMMISSION
(Continued From Page 1)
to the Commission room furniture, which will be used by the clerk and press representative. Bids were received from The Glades Office Equipment Co., The Glades Appliance Co., and The Glades Furniture Store, for 100 folding chairs for auditorium seating. The contest was given to The Glades Equipment company on a bid of \$249 a chair, either for 50 or 100 chairs.

An ordinance amending the existing ordinance relating to existing property tax sales and redemption, on real estate, to bring it in line with the new state statute was enacted. Interest on such delinquent taxes, will bear 18 percent the first year and eight percent thereafter. The City Commission directed the City Manager to enforce warrants will later be adopted. The City Commission directed the City Manager to receive bids for the interior painting of the auditorium, repair around window casings and sanding floor. By transfer of bond investments funds, money for this improvement is on hand.

Mr. James Hall for the Library Committee, presented an itemized financial report for the year, along with a statement of activities and operation. The clerk was directed to back a word of commendation.

There are a number of both local and outside contractors who are working on local construction work, who have as yet not taken out occupational licenses. The Building Inspector and Clerk were directed to not issue any more permits until such contractors receive their licenses by law in that respect, and if necessary, use a warrant.

Atlanta Federal Reserve Bank (Continued From Page 1) great possibility that some farmers will be approaching the banks of the south for loans to be used in the growing of the new textile crop.

It is the opinion of the bank that the necessity for farmers, investors, and bankers to use caution will cast no doubt on the future of the textile industry and on its important contribution to the agricultural and industrial interests in the south.

"Hard work on many technical problems that remain and conservative but courageous business development will be worth more to the industry at this stage than will any amount of merely promotional activity."

The growing of ramie in the Glades region is fast becoming a major agricultural interest. With the possible backing of banks in the south it could turn out that ramie could possibly gradually crowd the vegetable interests out of the picture.

It is noted that the expense for the growing of ramie per acre is relatively low in comparison with other crops which will make possible the planting of more acreage of ramie than of other crops with the same amount of money.

So with the ironing out of the troubles of processing, decorating and financing, ramie is indeed a great potential money crop of the Glades.

WCS Has Program
Mrs. Milton Barry presented the program at the meeting of the Women's Society of Christian Service at the Methodist Church Wednesday afternoon. Her subject was the homes for orphaned children which are provided and supported by Methodist Churches throughout the United States.

Mr. A. L. Wallis presided over the business session during which, Mrs. H. J. Bratley was elected secretary of social relations and local church activities to replace Mrs. Harry Shannon who has returned to Iowa.

Wins College Course
Two years of college at Duke University with all expenses paid and three hundred dollars in cash was the prize awarded Miss Sallie Ann Wingard who took third place in the Methodist National Public Speaker's Contest held at Lake Junaluska, N. C. last week. Miss Wingard will be remembered by many who heard her speak at the Methodist Church here last month while a guest of the Rev. and Mrs. Leonard Vandewater.

She is a graduate of Lee High School in Jacksonville, class of 1947.

Let's Have Action For Our Tax Dollar
Let's provide recreational facilities for our youth at home....an imperative need.

We have long discussed projects for the improvement of our city, let's quit talking, get busy and secure fruitful action.

I pledge my sincere endeavor to secure important and necessary improvements.

Your support of my candidacy in Group 3, as a City Commissioner, will be greatly appreciated.

W. F. (Billy) Crider
Member of Everglades American Legion Post No. 20

Announcement
Since my announcement as a candidate for City Commissioner Group One, many citizens from all parts of our city have come to me with offers of support for which I am deeply grateful. Let us continue the good work.

For the benefit of all the people my platform is here stated:

(1) Full cooperation with all Civic Clubs for the betterment of our City.

(2) A quick return to a safe and sound economic basis.

(3) A quick return to lower taxes thru economy in operation.

(4) Full respect for the wishes of the majority on important issues, with a square deal for all the people at all times regardless of social or financial position.

My seventeen years as a business man, property owner, and tax payer in Belle Glade qualifies me to carry out the above statements.

Knight Pump House Damaged By Bad Fire
A passing motorist advised Mrs. M. D. Hardy about 10:00 p. m. Sunday that the Knight pump house near South Bay was on fire. Mrs. Hardy immediately called the Everglades Fire Department which responded at once.

Meanwhile Laymon Hardy, university student home on vacation and two young brothers, Jimmy and Delbert, hastened to the scene and had the fire almost under control by the time the department unit arrived and turned on the stream of water to put the finishing touches to the fire. It developed that the pump operator, a negro who had been left in charge, had accidentally overturned and broken his lantern setting fire to the pump and plant. Considerable damage had been done by the time the fire was extinguished. Mrs. Hardy attempted to contact Thurman Knight by phone but was unable to reach him at the time.

Candidate Announcement
Upon the request of many of the city electors I am again presenting my candidacy for re-election as City Commissioner, from Group 2, at the coming municipal election of September 9th. If my services as Commissioner-Mayor have met your approval, I shall again be pleased to receive your support.

Many of the promises made by me on my original election have been fulfilled; and there are many other projects the city badly needs, in which I should like to have a hand in procuring. An experienced officer is always an asset for any city, and I feel that I can qualify on that basis, as having been a good and profitable agent for the City of Belle Glade, the past two years.

Lake Harbor Farmers Getting Land Ready For Crop Planting

In spite of excessive rainfall through June and July and heavy rains last week, much of the land within the confines of the District Drainage Pumping District, is sufficiently dry to permit the preparation of the soil for early fall crops. The high land near the lake in the Lake Harbor-South Bay farming area is being run down and plowed and growers are getting ready for the early fall cropping season.

C. A. Revels has started to plow. Grant & Layfield are getting a big acreage ready for the first planting. C. A. Thomas started drilling in egg plant seed on Friday for the early winter market.

The Jomen Farms four miles south of Lake Harbor on the west side of the Miami Canal comprising 3 1/2 section of farm lands fully improved and protected by ditching, diking, mole drains and pumping units has succeeded by constant pumping in keeping the water table down two feet although surrounded by thousands of acres of flooded mucklands. The county road leading to the Jomen Farms which is rock is still possible although flooded to the depth of two feet from overflow of the Miami Canal which it parallels. It was late in the afternoon that the roads were closed to traffic and the farms are busy getting ready for the season.

A. A. Thomas is preparing to put in 240 acres of celery and C. A. Revels is getting 300 acres in condition for snap beans. Ben Bolton, who has 1000 acres of this farm, has celery in seed beds which will be transplanting in three weeks. His fall cropping plans call for 400 acres of celery and 240 acres of potatoes.

Churches of Christ, Scientist, "SOUL" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, August 17.

The Golden Text is "Lo, this our time, we have waited for him, we will be glad and rejoice in his salvation" (Isaiah 25:9).

Among the citations which comprise the Lesson-Sermon, is the following from the Bible: "Hear, O Israel: The Lord our God is one Lord: And thou shalt love the Lord thy God with all thine heart, and with all thine mind, and with all thy soul, and with all thy might" (Deut. 6:5).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The proper use of the word soul can always be gained by substituting the word God, where the definite meaning is required. In other cases, use the word sense, and you will have the scientific signification. As used in Christian Science, Soul is properly the synonym of Spirit, or God; but out of Science, soul is identical with sense, with material sensation" (382:2).

Home Nursing Course Planned For Club Work

The Woman's Home Demonstration Club put in a second afternoon Thursday on their leather handcraft, making purses, shoulder bags and bill folds of pig skin and tooling calf skin leather. They plan a third afternoon at this craft next Thursday.

County Home Demonstration Agent, Miss Sarah Horton, was present to assist Mrs. F. W. Mutchler with the instruction. A short business meeting was conducted by President Mrs. Marvin Miller during which the members filled out a questionnaire on suggested topics for the new years program and kinds of handicraft instruction desired.

Miss Horton announced that the Red Cross had decided to conduct a series of classes in Home Nursing, each course to meet two hours a week for three weeks. Classes will meet for two hours each Tuesday and Thursday during the period set and certificates will be issued to those completing the course. It was decided to try to get up a class of at least 10 interested women in this winter course.

The hostesses for the afternoon were Mrs. A. B. Barnes and Mrs. G. J. Barstow who served light refreshments to Mrs. Margaret Miller, Miss Horton, Mrs. E. M. Willis, Mrs. F. W. Mutchler, Mrs. Wm. Arrington, Mrs. C. B. Higginbotham, Mrs. Minnie Hester, Mrs. W. G. Bowen, Mrs. W. M. Jefferson, Mrs. W. McLeod, Mrs. R. S. Donaldson, Mrs. Roy A. Bair, Mrs. Wm. Guigand, Miss Ruth Warren, Miss Kathryn Cook, Jackie Mutchler, Barbara Jean and Jordine Willis, Bonnie Bowen, Billy and Sue Miller, Evelyn Ward.

Large Attendance Hears O'Connell Discuss Elk Law

The largest attendance present at the Belle Glade Lodge of Elk since its institution was recorded at the Monday night meeting of August 4th. The special feature was a school of instruction in which Past District Deputy Frank O'Connell spoke on the rules and regulations of the order, and what it took to make a good Elk and Elk's Lodge. The speaker surely proved that he knew his lodge law, and his presentation was timely as well as profitable.

As Ralph York has left the city he sent in his written resignation of the office which he held in the lodge. Sam Berry was nominated as a candidate for advancement to the York office, the election to be at the next lodge session.

Judge Hubbell Back From A Western Trip

Judge G. A. Hubbell who went to Oregon and California for a pleasure trip, going by airplane both ways, has arrived home safe and sound, and is quite loquacious over his experiences.

He reports that the trip was highly enjoyable, and he was not air sick any of the time, and always able to take care of the fine meals served on the liners even though they were not of his favored vegetable type. He was much pleased with the attention that the plane crews extended him, and rather liked the women stewards. He was a little under 27 hours flying time from West Palm Beach to Medford, Oregon.

It had been more than 60 years since the Judge had visited the Oregon town, which he helped to build at Jacksonville, and he had to dig deep in his memory to recall locations, and he located only two of his boyhood friends, all the rest being dead. He sat at the same old desk where he presided as a Justice of the Peace. Oregon papers gave the Judge quite a play-up in their news columns. While he saw much progress in the northwest, yet he still prefers the Glades of Florida.

He was a bit disappointed in not being able to contact his son in San Francisco, between plane stops, nor did he get to do any rummaging in the city where as a young man he had been an active newspaperman.

Lions Have A
Surprise Visit By
Governor Helgrew

The Belle Glade Lions Club had an unexpected pleasure and surprise at its latest meeting when District Governor

Bob Helgrew of Ft. Myers, dropped in for an informal visit and to get a good meal. The Governor was given opportunity to address the club, and he spent his time in giving a brief report of the recent International Convention at San Francisco. He reported that Florida was represented by a delegation of 200 which got most favorable attention and that the International, a high honor.

The convention was attended by 25,000 Lions, and even with the largeness of the city accommodations, they were not sufficient for the proper handling of the mass of visitors.

Communism was the key subject of addresses and arranged for the coming year will carry Lionism to the European lands, with the disapproval of fighting the spread of Communism.

Mrs. Ruth Wedgworth and Dr. W. B. Burt, as guest speakers on subjects connected with the Belle Glade Hospital recently secured from the Federal Government, Mrs. Wedgworth gave interesting details as to how the grant was secured, and plans for the operation of the local and Memorial hospitals at Pahokee.

Dr. Burt presented the need of raising \$1500 funds for the improvement of the hospital interior. The money would be used as assuming the underwriting of \$500 the method to be devised by the Board of Directors, to which the matter was referred.

Vance Greer Saves Life Of Worker
A negro miner who fell a large covey over his life to the quick action of Vance Greer, son of Mr. and Mrs. V. Greer of South Bay. The negro was transporting a boat load of dynamite from shore to the drill barge in mid-stream when the overloaded boat sank. He was unable to swim and went to the bottom of the canal.

Vance, who is a member of the police department, saw his clothing and dove into the canal. He immediately made contact with the negro on the bottom of the canal and brought him to the edge of the canal where the members of the crew helped the negro and his rescuer to the bank where he was quickly revived. The crew then helped the negro salvage a part of the dynamite which had also gone to the bottom of the canal.

Boles Canal Dike Breaks Causing Property Damage

The dike on the Boles Canal at Okelanta gave way Friday night flooding the Cooper Chicken Farm for the second time in a month. The water poured in to the depth of 3 feet and the Coopers lost another 1000 chickens. They lost approximately 2000 in the first break. The remainder of the flock, originally 6000 birds, are on the ridge along the highway in front of the E. J. and Clarence A. Cooper homes.

Saturday night the dike on a

1200 acre tract on the south side of the Boles Canal and adjacent to the North New River Canal owned by Mark Tenet of Miami broke, flooding 400 acres of sugar cane, and the remainder of the tract which had been plowed ready to plant a fall crop of vegetables.

W. L. Martin, farm supervisor, stated that they got a Starling dragnet on location but the current was so strong from the head of water under the tract that they were unable to close the break. They will have to wait, he said, until the tide subsides to repair the broken dike. After which they can hope once more to pump the water off and bring the water tables on their tract under control.

Cattle Shipped To Arizona Ranch

The Serrales Cattle Ranch shipped eleven carloads of cat-

tle to Arizona last week. They were transported from the ranch below Okelanta to Lake Harbor by semi-trailer cattle trucks and loaded on cattle cars for shipment over the Atlantic Coast Line Railroad.

Enjoy Key Fishing Trip

Mr. and Mrs. Milton Burry, and family, Messrs. Howard and Donald Gale, of Ocala, and John M. Gledhill, formed a fishing party to Couch Island, near Marathon, over the week end, where they had excellent luck in getting snappers and Gags.

Barden Sold To Deland

Pete Bardin, of Canal Point, property of the West Palm Indians, and who has been doing some fine pitching for the Deland team has been sold to the latter named team.

Thirty Three Year Record Of Lake And Land Levels Within 10 Miles Of Okceehobee's Rim

The chart above shows the levels of Lake Okceehobee at the end of each month for a period of 33 years, beginning in March 1915 and running thru June of '47, Okceehobee datum.

The hachured lines running from northeast to southwest indicate the controls set up by the U.S. Engineers, the irregular black spaces give the water level in the Lake for the month indicated.

The heavy black line running from west to east gives the land level average for the period covered by the graph.

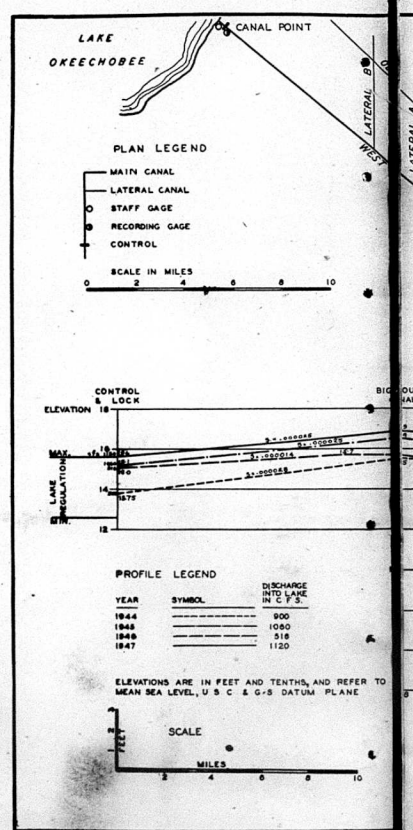

It will be noted that from 1915 to August of '24 the U. S. Engineers undertook to control the Lake from 16 to 19 feet, with it never going over 19, and only approaching that figure during November of '22 and October of '23; however it went as low 14, or nearly so, three times.

From August of '24 to January of '30 the limits were from 15 to 18 feet with the water going over four times, but for 7 months during '24 and '25, twice during this period it approached '14'.

Since '30 the levels were set between 14 and 17, with few times when it exceeded 17 except for the latter part of '30.

A most interesting item is the line showing the loss of elevation of the land, an average of 4.3 feet since 1915 for all the land within ten miles of the Lake's rim. From '15 to '20 it dropped 18 inches. From '20 to '30 it dropped another 18".

A loss of 4.3' in elevation of the land as an average is a disastrous loss. Reports of engineers recently found water above 19' elevation with the land at approximately 14.7' average and the lake a bit over 17 feet. Inadequate dykes holding a 4 foot head of water completely surrounded the farming lands of the Glades shows the precarious condition of the 16,000 ear-bt. vegetable industry of the Glades in addition to the 100,000 sugar crop, as well as the cattle finishing industry and the budding orange plantings.

OBSERVATIONS

(Continued From Page 1)

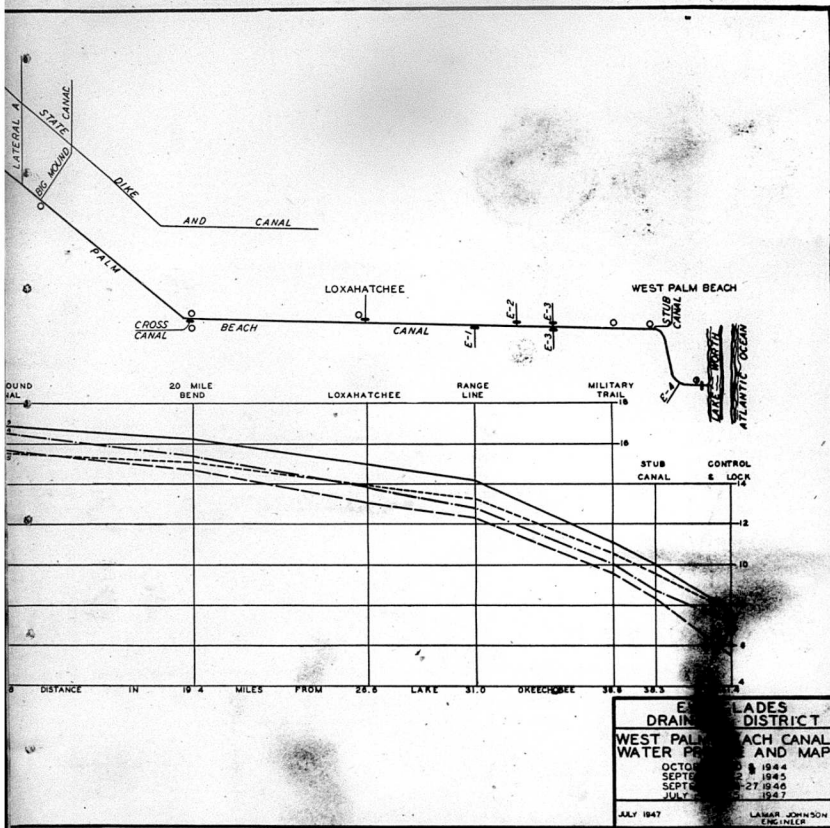

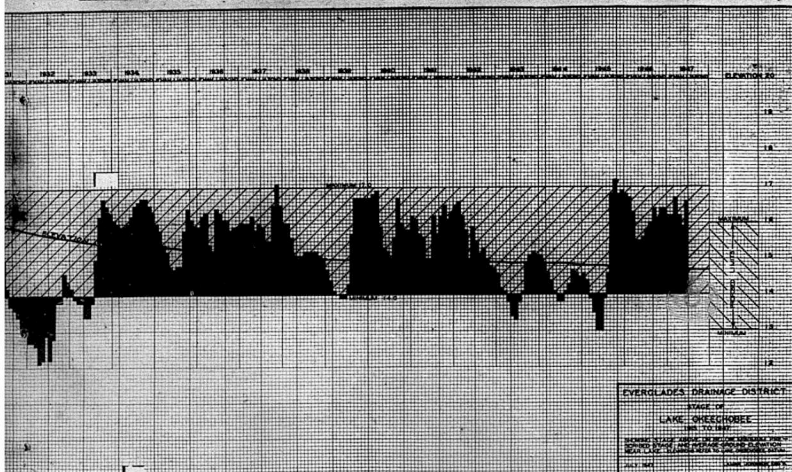

Belle Glade, heard the summary of its activities of the past year under the presidency of Ralph Kirk. Sight conservation is a primary activity of club work and here is what happened locally. Light tests made of school rooms, resulting in new lighting facilities being installed, rooms repainted to obtain better light results, and a screening test machine purchased and installed, and numerous pairs of glasses secured for the children needing them. The group of men determined to do it was humanly possible. The evidence presented before the Army Engineers certainly was of such a character as to set forth the fact that the Glades farmers and associate interests, were not asking for anything that was not needed

to the Paris Boy Scout jamboree; sponsored the formation of a Seacoast troop; donated to charitable projects \$230; and held two ladies' nights.

On a dark night, as one looks up our main streets, and sees all those neon lights glowing, it impresses one that Belle Glade is indeed quite a business city. Quite clifed indeed.

While the recent lake level hearing passed off most pleasantly and peaceably, yet it was easily seen that there was a group of men determined to set forth the fact that the getting some changes made through Government agencies if it was humanly possible. The evidence presented before the Army Engineers certainly was of such a character as to set forth the fact that the Glades farmers and associate interests, were not asking for anything that was not needed

The economy rich Everglades part in the growth of the town of West Palm Beach that fact is more realized in that when the Glades has its reflection in the water, it is the only place in the county where the cash registers of every year; and of trade from the Glades have its share of the East. The spirit of growing more stronger all the it ever be so. Boats navigate

ture of the
days a big
e and busi-
ness and
pleasure and industrial income.
Bench, and
more and
at center. It
over the flooded farm lands,
due in part to the high lake
level in the lake for navigation
it is a different story, for
the latter spells disaster and
losses which run into millions.
The big question is which is
the most valuable to the
Glades, and the nation which
depend on our vegetable
crops, farming or navigation?
Perhaps the Army Engineers
will make a final report
on the lake level problem, will
solve the question.

Approaching the time of sea-
son when the activity of the
fields begin for the fall plant-
ings. The question is "What
will the harvest be?"

For many years past, the
eastern Martin county farm-
ers have been suffering from
flood losses. These crops com-

area has gone its own way, so
far as farming cattle and cit-
rus business was concerned,
thinking little of that rich
portion of the county which
borders the big lake, and ad-
joins the river Everglades muck
land section. However, as ex-
pansion extended westward to-
ward the lake, a new vista has
arisen and now an east coast
movement has been started
which has great possibilities.

Western Martin County now
has good rail facilities, with
the Seaboard at Indiantown
and the Florida East Coast
from Sandpoint to Port Mayaca
and the new junction point,
ment Station for that Federal
which gives excellent shipping
service to the north market
over the Ft. Pierce short cut.
It is claimed that the sand
lands of Martin County can
produce some very superior
specialized crops, which are
not featured in the Glades
muck section, and they are not
subject to so heavy flood or
frost losses. These crops com-
